- Focus on **Median Growth Percentile (MGP)** as a key measure of a school team's value added.
  - The impact of different student demographics/socio-economic situations on MGP is minimal.
  - A MGP above 60 indicates that students are learning at least a year's worth of information, a MGP below 40 shows that less than a year's worth of learning has occurred.

Focus on **Rolling MGP**, the three year average MGP for the school, as it controls for the impact of student and staff populations over time.

Focus on **Percent Proficient and Advanced (% P&A)** as a key measure of students' progress towards meeting the goal of being career and college ready.
