Focus on **Median Growth Percentile (MGP)** as a key measure of a school team's value added.

- The impact of different student demographics/socio-economic situations on MGP is minimal.
- A MGP above 60 indicates that students are learning at least a year's worth of information, a MGP below 40 shows that less than a year's worth of learning has occurred.

Focus on **Rolling MGP**, the three year average MGP for the school, as it controls for the impact of student and staff populations over time.

Focus on **Percent Proficient and Advanced (% P&A)** as a key measure of students' progress towards meeting the goal of being career and college ready.

District Goals: How will your achievement improvements contribute?

- Every student will have completed Algebra 1 by the end of 9th grade (unless IEP requirement is different).

- **The percentage of proficient/advanced third grade students in reading on TCAP will increase from 80% to 85% by August of 2015.**

- **The percentage of proficient/advanced fourth grade students in math on TCAP will increase from 77% to 80% by August 2015.**

- **Every student will achieve one year's growth, or more as needed to 'catch up,' in each year of school and be ready for the next level.**

- The growth measures for the median growth percentile (MGP) will reach 50th MGP or growth measures over 50th MGP will increase by:

  - For Free/Reduced Lunch Eligible students

    - in writing from 47 to 50

    - in reading from 48 to 50

Important Questions for Accountability Committees

- How are you identifying best practices in your building and transferring those skills among your staff?
- Do you understand the root causes of achievement shortfalls at your school?
- Have you tracked implementation of major achievement improvement initiatives from previous years' Unified Improvement Plans? If not, why?
- Which group of students is experiencing the most growth and why?
- Are all of your students experiencing at least a year's worth of achievement growth?
- What changes will you make to ensure all students are proficient at the end of every year?
- Have you looked at achievement scores from other schools to determine best practices from schools in Jeffco and beyond?
- How do we spread best practice?
- In which subjects and grade levels are students experiencing the most growth at your school?
- How do we replicate that success?
